BULK MATERIALS BINS

BINS DESIGNED FOR STORING SAND AND SALT
IN PEDESTRIAN TRAFFIC AREA, AT BUS AND TRAM STOPS, RAILWAY STATIONS,
CAR PARKS ETC. ALSO SUITABLE FOR SORBENT OR GRAIN.

BENEFITS

- Design – because of the unique structure and innovative design bins can be placed in almost any pedestrian traffic area.
- Durability – strong and rigid construction, top quality polyethylene and state-of-the-art technology make the bins extremely resistant to mechanical damage and poor weather. UV stabilized, they won't fade in the sun. Having no metal components they are extremely light and non-corroding. The bins are an ideal solution for storing materials used to protect roads and pavements, e.g. sand and salt or sorbent.
- Colours – the standard sand and salt bins are available in yellow, green, blue.
- Cost effectiveness – the bins can be transported by forklift, which facilitates their handling and storage. When empty and off-season, they can be stacked to take up little space.
- Safety and hygiene – the sand and salt bins manufactured by Titan have been certified by the National Institute of Hygiene.
- Technical consulting – our sales team provides quick and professional answers to any question.
- Warranty* – all Titan tanks are covered by a five-year warranty; the equipment carries a one-year warranty.

*The warranty applies to the product used in accordance with the manufacturer's recommendations.

AVAILABLE CAPACITIES AND DIMENSIONS

			
PRODUCT CODE SGB00050*	PRODUCT CODE SGB00100*	PRODUCT CODE SGB00150*	PRODUCT CODE SGB00300*
Capacity 50 kg Length 0.59 m Width 0.57 m Height 0.50 m	Capacity 100 kg Length 0.72 m Width 0.69 m Height 0.60 m	Capacity 150 kg Length 0.86 m Width 0.75 m Height 0.81 m	Capacity 300 kg Length 1.09 m Width 0.95 m Height 1.01 m

Product dimensions may vary within +/- 1%.

* Code ending depends on product colour (BU - blue, GN - green, RE - red, YE - yellow).
