GUARANTEE\*

### Dimensions

Volume	Length	Width	Height	Transport height	Inlet depth
10 000 litres	3765 mm	2010 mm	2463** - 2763 mm	2773 mm	591** - 891 mm

The dimensions given are approximate. The differences result from the production technology and method of use of the product.

\* The warranty applies to the product used in accordance with the manufacturer's instructions. The equipment is covered by a 2-year guarantee.

\*\* The attachment can be trimmed for shallower depth.

## Water Management Solutions

CEE

### Value of € 300,00 for free!

Innovative ultrasound liquid measuring system with external wireless receiver.

This solution provides visual control of the fill on the receiver's display from your home.

### Expand your system with the option Wi-Fi module!

The equipped sensor will transform the solution into a smart system with a Wi-Fi module and smartphone app to monitor the liquid level from anywhere in the world.

## Advantages

Advantages of SewageStore tanks in comparison with concrete tanks:

- tightness confirmed with a 10-year guarantee\*,
- impermeable material,
- the product does not corrode or crumble with time,
- aesthetic and safe hatch,
- no crane needed for transport and assembly,
- holds the National Declaration of Performance documentation,
- the tank can be used to collect rainwater (e.g. after the household is connected to a sewer system).

## Did you know that...

...the SewageStore septic tank is equipped with a durable and compact hatch?

The hatch composes aesthetically with the ground level, does not disrupt garden plants, and has minimal impact on its surroundings.

This is very important when you are doing lawn work – you can use a regular mower and do not need any precision trimming tools.
